

SuperStick® Mounting & Laminating System

Add Value and Protection to your posters, signs and digital media in just 3 easy steps with the SuperStick® Mounting & Laminating System:

1

Insert your print into the SuperStick® Mounting & Laminating Pouch

2

Place the SuperStick® pouch on the surface of virtually any rigid substrate or foam board - NO ADHESIVE NECESSARY!

3

Pass the SuperStick® pouch and board combination through a heated roll laminator.

Finished!

- ✓ Works on hard-to-stick-to fresh digital printer & color copier output from printers such as Xerox, HP, Xeixon, Canon.
- ✓ Works exceptionally well with wet ink prints - no more waiting to dry before laminating.
