

D&K's Pressure Sensitive Laminates run even and smooth to enhance your finished product. These Pressure Sensitive Laminates offer a clean finish and added durability to meet your application requirements.

Pressure Sensitive UV Polyester Gloss

An exceptionally clear, glossy film that brings out the brightest colors of your finished piece. This film features UV inhibitors to protect the image from fading. The aggressive acrylic adhesive insures a flat, permanent bond. Available in a 2 mil configuration.

Flexible Graphic

Pressure Sensitive UV Vinyl Luster

Perfect for applications when a slightly dulled finish is needed. This film also features UV inhibitors. Available in a 3 mil configuration.

Pressure Sensitive UV Vinyl Matte

The perfect finish to add an elegant yet subtle non-reflective matte appearance with the benefits of UV inhibitors. Available in 3 mil configuration.

Pressure Sensitive UV Vinyl Textured

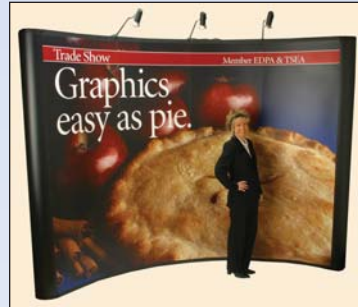

An extremely sturdy textured vinyl film perfect for trade show graphics, pop-up displays and floor graphics. Available in a 6 mil configuration.

Floor Graphic

Pressure Sensitive Polycarbonate

An extremely durable film that adds a unique textured look to your finished piece. Ideal for trade show exhibit graphics because of its toughness, coupled with flexibility needed for certain applications such as signage and displays. Available in a 5, 10 and 15 mil configuration.

Trade Show Exhibit

Pressure Sensitive UV Hardcoat Gloss

This hardcoat gloss film provides excellent protection against graffiti and is a superior dry erase film that leaves no ghosting. Available in a 2 and 5 mil configuration.

Bus Shelter

Pressure Sensitive UV Vinyl Sandex

A durable, sandy textured finish with excellent scuff and scratch-resistance. Perfect for trade show and POP displays and graphics. Available in a 5 mil configuration.

Pressure Sensitive UV Vinyl Canvas

For professional looking results that transform your digital giclée output into fine art masterpieces with a real "printed on canvas look". Available in a 10 mil configuration.

Pressure Sensitive UV Vinyl Gloss

A glossy finish, ideal for inkjet prints, trade show signage and posters. Available in a 3 mil configuration.
