

Endura Overlams offer a durable thermal laminating solution that is completely waterproof. These polyester overlams are stronger than other thermal products on the market, making them ideal for demanding applications including cards, menus, durable labels, and more.

- Available with UV protection for outdoor applications including signs, tags, and parking permits, etc.
- Resists water and moisture
- Costs less than pressure sensitive overlams
- Thermal adhesives are available for all print types including difficult digital output
- Strong construction reduces the possibility of failure or delamination, even in harsh environments
- FDA compliant for applications involving food contact

# ENDURA Overlams

Thicknesses:	1.5 mil - 10 mil
Film Properties:	Waterproof, Meets ANSI INCITS 322 test standards
Available Adhesives:	Copolymer, SuperStick® Digital, HP Indigo
Core Size:	3"

Waterproof Thermal Finishing Solution for Cards and More

## Recommendations

- 1) Use Endura Overlams in place of expensive pressure sensitive products that cost much more. Endura Overlams provide a better adhesive bond and overall look than self-wound pressure sensitive films.
- 2) Endura Overlams are perfect for demanding card applications that may be exposed to water or other fluids during normal use.
- 3) Protect outdoor projects with special Endura UV Overlams that prevent graphic fading and color shift caused by sunlight.

**Made in the USA**
