

D&K Group offers advanced finishing solutions for most digital print technology, including the popular HP and iGen systems. D&K's SuperStick® adhesive technology has been designed to tackle the specific challenges associated with laminating to hard-to-stick-to digital printer output. As printing technology constantly evolves, D&K works closely with customers and printer manufacturers to develop laminating and adhesive solutions for the latest print engines.

[Printer Compatability]

- HP
- Xerox
- Kodak
- Xeikon
- Ricoh
- Konica Minolta
- MGI
- Canon
- Most Other Digital Printers

[Available Base Films]

- Polyester (PET)
- Polypropylene (OPP)
- Nylon Curl-Free (NYL)
- Polyvinyl Chloride (PVC)

[Available Finishes]

- Gloss
- Semi-Gloss (PET Only)
- Matte
- Non-Reflective Matte (PET Only)

[Features & Benefits]

- SuperStick® Adhesives are operator friendly and laminate with minimal tension and pressure adjustments;
- Cost-effective - producing less scrap; it is a low cost alternative to PSA's
- SuperStick® wets out smooth and clear and gives your printed materials a three-dimensional look.
- Compatible with most digital printer output
